## ABOUT US

**Medicura Devices**, founded in 2022 & **inspired with a commitment to serve the medical device industry with pioneering efforts based on excellence, innovation & use of latest technology.**

Medicura Devices headquartered in New Delhi and the **manufacturing facility situated in Ambala**, and specialised in the manufacturing of high-quality medical disposables catering to various healthcare needs across the globe.

**Medicura Devices** is young and dynamic company having **state-of -the-art manufacturing facility**, is committed to **invest continuously in R&D** and innovations, latest machineries, new technologies, product development to provide highest quality products at affordable prices to improve quality of life and human well-being.

**Medicura Devices** being emerging company has a dedicated team of result oriented, mission-driven Professionals, Healthcare Experts, highly expert Technical & Product Specialists, R&D Team, Sales & Marketing Team ensuring excellent distribution of products supported by logistics, and the experienced Management Team. This Team has experiences of decades to produce the products meeting all the required national & International Standards and Regulations to provide end users satisfaction.

**Medicura Devices** has a production capacity of **180 million** finished medical products over a year and have been supplying goods to Top reputed Institutions and Hospitals. Our diverse product portfolio includes wide range of Medical Disposables such as I.V. Cannula, Infusions Sets, Blood Transfusion Sets, Catheters, and more. Each product is meticulously designed and rigorously tested to meet the stringent requirements of healthcare professionals and regulatory authorities.

**Medicura Devices believes in Care, Serve, Protect Lives!**

### OUR MISSION

To serve and contribute to improve quality of human life & well-being by consistently delivering the highest standard of Medical Device Products and Services, Forever satisfaction of End-users, Hospitals, Distributors & Healthcare Professionals.

### OUR VISION

To be the leading Medical Device Manufacturer & Supplier globally and to provide exceptional care & economical availability of high quality products & services, across the globe.

### OUR VALUES

Care, Commitment, Team Competence, Compassion, Safety, Communication, Respect, Credibility, Viability, Diversity, Work, Common Success.

**State-of-the-Art Facility:** Advanced infrastructure designed for precision and quality.

**Fully Equipped R&D Centre:** Driving innovation and product development.

**State-of-the-Art Tool Room:** Precision engineering for consistent manufacturing.

**ISO 13485:2016 Certified:** Adhering to global quality management standards.

**Class 10,000 Clean Room Area:** Ensuring contamination-free production.

**Fully Automated Assembly Line:** Delivering efficiency and accuracy.

**Automated Blister Packing:** Cutting-edge packaging solutions.

**ETO Sterilization:** Compliant with ISO 11135 standards for optimal sterility.

**Stringent QC Measures:** Rigorous quality checks at every step.

**Triple Testing Process:** Ensuring the highest level of product reliability and safety.

## OUR CERTIFICATONS

### CURAFIX®

#### Safety IV Cannula with Wings and Injection Port

- Available in PUR material specially tapered & kink resistant bio-compatible material for easy soft venipuncture and with optimal flow-rate and high indwelling time.
- With safety clip to prevent needle stick injuries.
- A transparent Flashback Chamber on the hub that provides quick visual confirmation of blood by successful venipuncture.
- Bevel: The angled tip of the needle designed to facilitate smooth insertion into the vein with minimal trauma.
- Options: Medical Grade Paper / Tyvek, **Hydrophobic Filter**, Porous Plug, Snap-fit, Flip-type Port Cap.

### CURAFLO®N

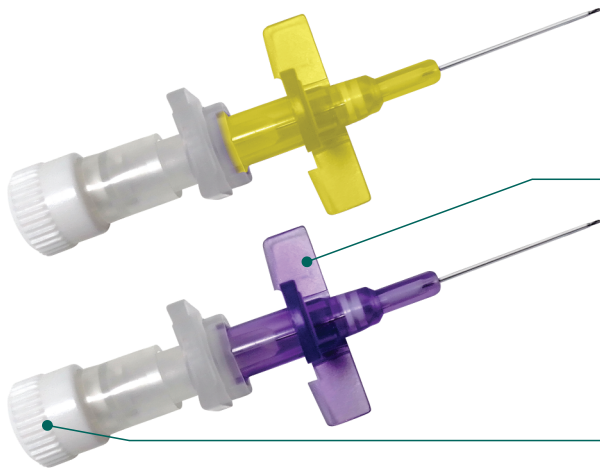

#### IV Cannula with Wings and Injection Port

- Wings allow easy and proper fixation. They improve stability during insertion which ensure precise placement and minimize the risk of displacement.
- The Injection Port allows easy administration of drug into Cannula itself with syringe without a needle and prevents back flow.
- A colour-coded flip-top snap cap is attached to the port.
- The catheter contain Radio-opaque lines for accurate radiographic detection.
- Includes Thread Stopper (Luer Cap) to block the catheter when not in use.

### CURANEO

IV Cannula with Small Wings and without Injection Port

Small Wings allow easy and proper fixation, specially where delicate insertion is required. They improve stability during insertion which ensure precise placement and minimize the risk of displacement.

Includes Thread Stopper (Luer Cap) to block the catheter when not in use.

### CURAPEN

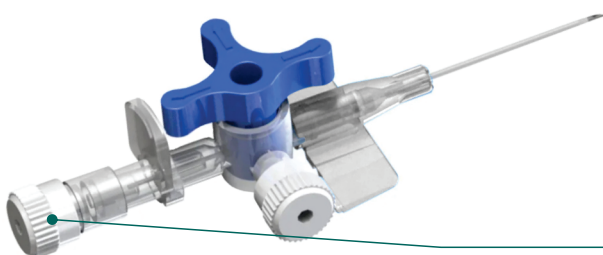

IV Cannula without Wings and without Injection Port

Reduces infection risk. No wings or port lower the chances of pathogens entering blood vein.

### CURACATH

IV Cannula with Integrated Three-Way Stop Cock

Useful for simultaneously administering medications, infuse fluids and withdraw blood samples without requiring multiple Needle insertions.

Includes Thread Stopper (Luer Cap) to block the catheter when not in use.

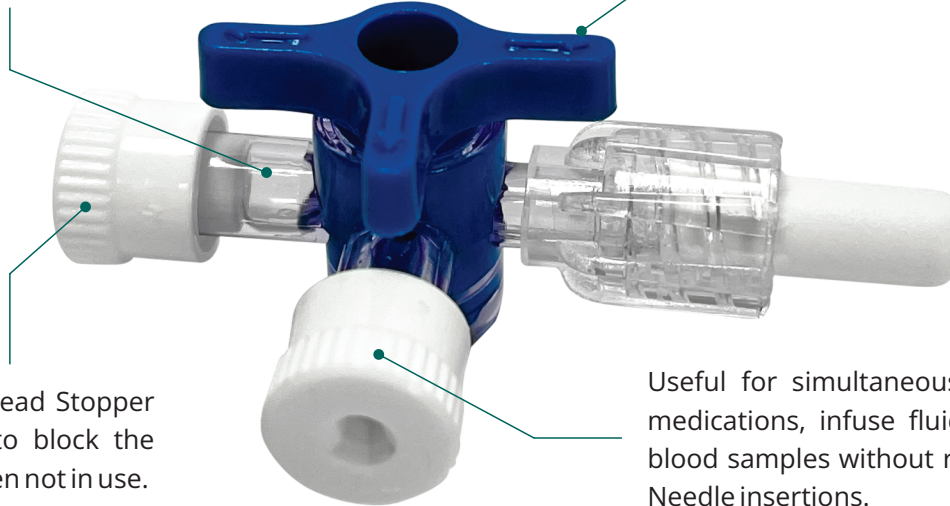

# INFUSION THERAPY

## CURAWAY®

### Three-Way Stopcock

Crystal clear transparent body for high visibility of fluid flow.

Handle marked with arrow indicating direction of flow.

Includes Thread Stopper (Luer Cap) to block the catheter when not in use.

Useful for simultaneously administering medications, infuse fluids and withdraw blood samples without requiring multiple Needle insertions.

# ANESTHESIA & RESPIRATORY

## SUCTION CATHETER

- For Removal of Secretion from the Airway like Tracheal \ Bronchial region.
- Soft Distal End and Two Lateral Eyes for Smooth Caring Insertion.
- Kink Resistant, DEHP-Free Tubing.
- Universal Color-coded Connectors for easy identification.
- Thumb Control and Finger Tip Control available with graduation marks.
- Length: 50cm.

### SIZES AVAILABLE

### PACKING DETAILS

Inner Carton: 25 units  
Outer Carton: 250 units

## ENDOTRACHEAL TUBE

- Made of special thermos sensitive material readily conforming to anatomical curvatures at body temperature.
- Plain / Cuffed variants available.
- Provided with soft cuff based on high volume and low pressure at the distal end.
- Kink Resistant, Thin Walled, Non-Toxic, Non-Irritant Medical Grade PVC.
- Proximal end fitted with standard 15mm Connector.

### SIZES AVAILABLE

Plain: 2.0 to 5.5mm  
Cuffed: 4.0 to 10.0mm

### PACKING DETAILS

Inner Carton: 25 units  
Outer Carton: 100 units

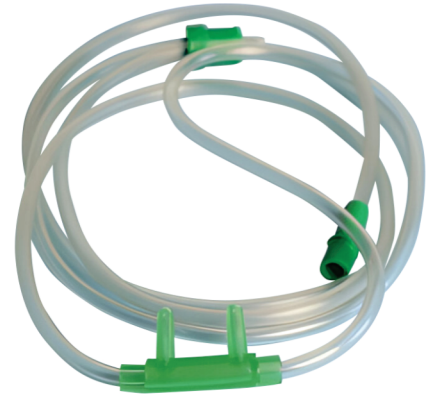

## LUNGS EXERCISER

- Three Ball Lung Exerciser to restore Lungs capacity after post operative surgery.
- Breathing Capacity of 1200cc, 900cc, 600cc which provides more efficient exercise to Patient.
- Useful for improving Cardio-Pulmonary well-being.
- Provided with unique Handle for easy holding while exercising.
- Non-Sterile.

## TWIN BORE NASAL CANNULA

- Soft Curved Nasal Prongs for supply of Oxygen for easy and
- Soft covered Nasal Prongs for safety of Oxygen.
- Star Lumen Kink Resistant Tube for smooth & comfortable continuous flow
- Soft Twin Prong Nasal Tip to ensure equal volume of Oxygen to both Nostrils.

### SPECIFICATIONS

Sizes: Neo-natal (Infant), Child (Paediatric), Adult  
Tube Length: 200cm

### PACKING DETAILS

Inner Carton: 10 units  
Outer Carton: 100 units

## HME FILTER (HEAT MOISTURE EXCHANGE FILTER)

- Retains heat and moisture from Patients exhaled gases.
- Moisture return: 32mg h<sub>2</sub>O/L.
- Flow rate: 30L/min.
- Tidal volume: 150ml.

## SILICON MANUAL RESUSCITATOR SET

- Used for manual resuscitation and adequate Ventilation | Oxygenation to Patients in unconscious state. Mostly used in emergencies.
- Reusable & autoclavable makes it economically affordable.
- Overall for Adults, Paediatrics, Infants.
- 100% Silicone material.
- Non-Kink Oxygen Tubing.
- Helps to inflate Lungs & improve Oxygenation.

# ANESTHESIA & RESPIRATORY

## OXYGEN MASK

- To Deliver Oxygen to Patient during surgery or Critical Care.
- Suitable for convenient Oxygen Therapy.
- Swivel Connector for Patient comfort.
- 200cm Long Star Lumen Kink Resistant Tube.
- Elastic Strap & Nose Clip provided to position Mask properly.

### SPECIFICATIONS

Sizes: Child (Paediatric), Adult  
Tube Length: 200cm

### PACKING DETAILS

Inner Carton: 25 units  
Outer Carton: 100 units

## NEBULIZER MASK

- Used for nebulization in mist form.
- Swivel Connector for Patient comfort.
- 200cm Long Star Lumen Kink Resistant Tube.
- Soft edges for high comfort to Patients.
- Elastic Strap provided to position Mask properly.
- Consist Of Nebulizer Mask, nebulizer Chamber and Star Lumen Tubing
- Sizes: Adult and Paediatric.

### SPECIFICATIONS

Sizes: Child (Paediatric), Adult  
Tube Length: 200cm

### PACKING DETAILS

Inner Carton: 25 units  
Outer Carton: 100 units

## OXYGEN MASK WITH RESERVIOR

- Suitable for high concentration oxygen therapy.
- Comes with a transparent Plastic Reservoir of 600ml attached to mask which allows deep-breathing without wastage of oxygen.
- Non-Return Valves provided to prevent CO<sub>2</sub> retention.

# UROLOGY

## URINE COLLECTION BAG

- Made of Medical Grade Non-Toxic, Bio-Compatible PVC Sheets (Double Layered, Laminated).
- Designed Outlet Connector to make closed secure connection with Catheters.
- Non-Return Valve & Drainage Outlet Top & Secure Bottom.
- With hanging and carrying systems.
- Printed with easily readable scale and other necessary subjects.
- Tube Length: 100cm.
- With T-outlet or with Bottom Drainage Port.

### CAPACITY

Padiatric: 100ml

Adult: 2000ml

### PACKING DETAILS

Inner Carton: 25 units

Outer Carton: 100 units

## URINE METER

- Urine Collection Bag graduated in 'ml' with Measured Volume Meter for accurate measurement of Urine.
- Needle-Free Sampling Port provided for sample collection which maintains closed system, reduces chance of infection.
- Two Layer Laminated PVC Sheet to avoid leakage.
- Provided hanging and carrying systems.
- With T-outlet and with Bottom Port.

### CAPACITY

Standard: 2000ml

### PACKING DETAILS

Inner Carton: 10 units

Outer Carton: 100 units

## FOLEY BALLOON CATHETER

- Silicon Elastomer bonded with Latex Rubber for easy Catheterization, having longer indwelling time.
- Made of Latex, Silicone Coated for easy insertion and removal.
- Two smooth Lateral Eyes for maximum drainage and to avoid risk of injury and encrustation.

### SPECIFICATIONS

Size: Paediatric

Balloon Capacity: 3 to 5ml

Size: Adult

Balloon Capacity: 30ml

## CLOSED WOUND SUCTION SET

- Used to facilitate the Wound drainage under negative pressure, post-operative surgery from Closed Wound or Any Surgical Site, Body, Cavities.
- Reduce post-operative oedema and hematoma formation.
- Promotes fast and gentle healing thus preventing swelling and infection.
- Unit consists of:  
Bellow Unit Connector;  
Connecting Tube with Clamp and "Y" Connector;  
Curved Trocar with Catheter;  
Perforated DEHP-Free Redon Drain Catheter;  
Sizes of Bellow Chamber: 400, 600 & 800ml; 50ml for paediatric use.

### SPECIFICATIONS

#### CATHETER SIZES

#### BELLOW CAPACITY

Adult: 400/600/800ml  
Paediatric: 50ml

## THORACIC DRAINAGE CATHETER

- Suitable for effective drainage after Cardio-Thoracic & Thoracic surgery.
- Atraumatic & rounded open distal end with smooth Eyes.
- Proximal end is fitted with pull through tapered Tongue.
- With Radio-Opaque Line and markings at every 2cm from the last Eye.
- Cross side Eyes to prevent tissue aspiration.
- Matching size Connector for easy connection to the drainage system.
- Soft, Frosted and Kink Resistant PVC Tubing.
- DEHP-Free.

#### SIZES

8FG to 40FG

#### TYPE

- With Trocar
- Without Trocar

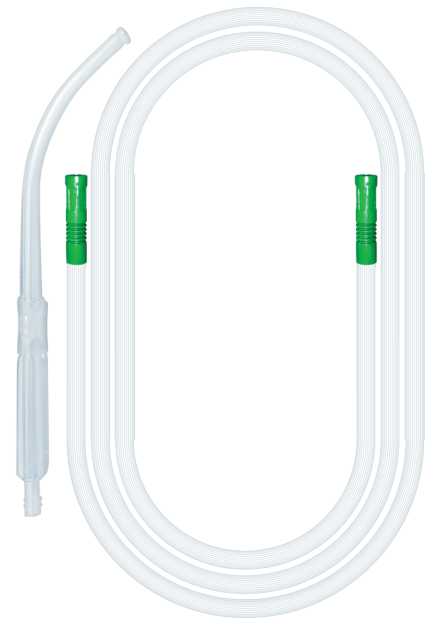

#### PACKING DETAILS

Inner Carton: 10 units  
Outer Carton: 100 units

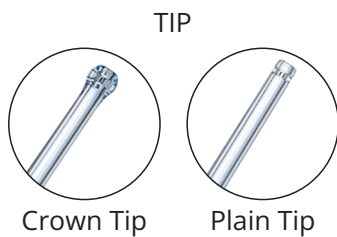

## YANKAUER SUCTION SET

- Used for suctioning oropharyngeal secretions to prevent unwanted aspiration.
- Suitable for Pre-operative removal of Secretion and Body Fluids or during the open surgery.
- Standard Funnel Connector at distal end of Tubing to connect Yankauer Handle.
- Yankauer Handle is open end with 4 lateral Eyes.
- Yankauer Handle available in Standard or Crown Tip with or without Vacuum Thumb Control.
- Soft and Kink Resistant DEHP-Free PVC Tubing.
- Tube Length: 180cm to 300cm.

### OPTIONS AVAILABLE

### PACKING DETAILS

Inner Carton: 10 units  
Outer Carton: 100 units

## UMBILICAL CORD CLAMP

- Specially designed Clamp prevents slippage of umbilical cord after clamping.
- Suitable for clamping the Umbilical Cord after birth.
- Security lock to prevent accidental opening after clamping.
- Grooved clamping area to prevent slipping of the Umbilical Cord.

### COLOURS AVAILABLE

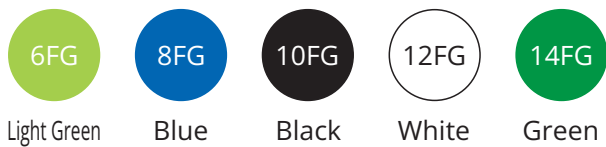

# GASTROENTROLOGY

## MUCUS EXTRACTOR

- For aspiration of Mucus Secretions, easy and smooth Bronchial or Tracheal Secretions of a new born baby.
- Used for collection of specimens for microbial examination of Aspirate.
- Separate Screw Top Lid for safe sealing and handling of Aspirate.
- Soft, Frosted & Kink Resistant PVC Tubing.
- Length: 40 & 50cm.
- Capacity: 25ml & 40 ml.
- Available for Infants, Paediatrics, Adults.

### SIZES AVAILABLE

### OPTIONS AVAILABLE

- Funnel Control
- Thumb Control

### PACKING DETAILS

Inner Carton: 25 units  
Outer Carton: 100 units

## INFANT FEEDING TUBE

- For nutritional feeding of Infant and Neonates.
- Well-marked graduations every centimeter.
- Closed distal end with two lateral Eyes.
- Soft, Frosted & Kink Resistant PVC Tubing with Radio-Opaque Line.
- Length: 40, 50 & 100cm.
- DEHP-Free Tubing.

### SIZES AVAILABLE

### PACKING DETAILS

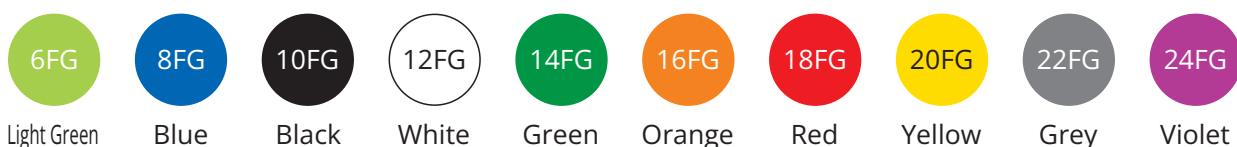

Inner Carton: 25 units  
Outer Carton: 100 units

## RYLES TUBE

- For Nasogastric introduction of nutrition and aspiration of Intestinal Secretion.
- Closed distal end coned with Radio-Opaque Line for accurate placement & positioning.
- Four lateral Eyes for better aspiration.
- Tube with Radio-Opaque Line, marked at 50, 60 and 70cm from the tip for accurate placement & positioning.
- Soft, Frosted and Kink Resistant DEHP-Free PVC Tubing.
- Color Coded Funnel End Connector for easy identification of size.
- Length: 105cm.
